#### **PRE-PLACEMENT TALKS – IBG FINCON PVT. LTD. PUNE**

---

In on campus placement drives recruitment companies are officially invited on the college campus to conduct interviews to gauge their potential as future employees. The on campus drive process followed by IBG FINCON Company is centralized. Campus recruitment is the process of recruiting young talent directly out of colleges. Yashoda College of MBA arranged campus drive of IBG FINCON Company on 29 April 2023, at Yashoda college of MBA young talented students were interviewed and selected in IBG FINCON Company. Also it is considered as one of the best ways to hire fresh talent right of the college. Students those secured 60% and above in their academic profiles in 10th standard, intermediate, BE/BTECH as well as MBA are eligible for IBG FINCON organization. IBG FINCON believes that on-campus placements are easily approachable. The recruiters arrive at college campus itself. Benefit of on campus drive is limited competition. Rather than competing with the whole community, students here only need to outshine their peers only .IBG FINCON applied following criteria's /stages while conducting the on campus interview.

- 1) Skill assessment test,
- 2) Group discussion,
- 3) Panel interview round,
- 4) Technical test and

MANAGEMENT'**

The Faculty of MBA organized Interactive Session on 'Overseas Education of Business Management' on, December 15, 2022, with Sarswati Balayar (MBA, Germany). In her guidance to students of MBA she said "The overall development that MBA students undergo during their time at the Program makes them a highly attractive proposition for employers" With so many possible career options after an MBA, it can be a bit overwhelming for students to narrow down on their ideal role. It was an informative and fruitful discussion that students had with the Saraswati.

More industry-oriented specialized programs: Increasingly, recruiters will demand better alignment between B-School curriculum and their job requirements. Super-specialized management qualifications will progressively become more crucial! Hence, industry-specific specialized programmes will increase, for instance in areas such as, insurance and mutual funds, healthcare management, business analytics etc. she added

Orientation on 'How to Choose MBA Specialization.?'

Date: August 05, 2022

Often the students of MBA get disordered while opting the specialization at the MBA Part II. Choosing MBA specialization is the crucial decision that the students have to make. Choosing MBA specialization is as important as the career. The decision about the specialization may make the career successful or it may cause suffering from several problems in the future.

The Master of Business Administration (MBA) programme is designed to equip students with a broad understanding of all aspects of operating a business, thereby allowing them to comprehensively upgrade their professional acumen and managerial ability. During the first few months of the MBA, students sit through courses covering a wide range of business functions, from finance to human resources. After acquiring this fundamental knowledge, you are then allowed to pursue specializations wherein students take dedicated courses in one or two domains and develop deep expertise in the process.

Although choosing an MBA specialization is majorly driven by your professional interests and career goals, students should also take into account factors such as the number of full-time and internships opportunities in that domain, salary packages, the business school's reputation for that field, and the quality of faculty and pedagogy on offer. Thus, despite not needing to make a final decision on their preferred MBA specialization until the later stages of the programme, prospective candidates are recommended to evaluate all the above criteria even before joining the Institute.

Faculty of MBA organized orientation on the given topic. The resource person was as follows.

VITAMINS AND MINERALS CHART

Different types of vitamins and minerals enable healthy body function, such as cell and tissue repair, production of cells, and healthy brain function. Your body doesn't produce these vitamins and minerals on its own, and while you can get most of these from a supplement, your body reacts better when these vitamins and minerals come from food.

According to Health.gov, Americans do not consume sufficient amounts of potassium, dietary fiber, choline, magnesium, calcium, and vitamins A, D, E, and C. Iron is also under-consumed by adolescent girls and women ages 19 to 50 years of age.

Today morning I talked to all group leader of TY in conference call. They all are very positive and doing study accordingly. In the discussion, we decided some points such as follows,

Task will divide in each group members so every group member remain active.

Each group member summarise notes in one page.

All group members meet in conference call on every alternate day and share the information.

So I appreciate all TY group leader and members for positive approach for GPAT.

Keep the moral high...
